

SG II 20-5-10

80% of N from Nutralene[®], 100% of K from SOP
Fine Grade Formulation

- Premium fine grade fertilizer providing a high analysis of nitrogen and potassium in a 2:1 ratio for greens and tees.
- 80% of the total nitrogen derived from Nutralene[®], which releases over a 16 week period through hydrolysis and microbial degradation.
- Potassium derived from sulphate of potash; a low chloride, naturally slow releasing source of potassium and sulphur.
- Excellent turf safety.
- Uniform particle size for accurate applications.
