

Nu-Gro Select 15-0-30

100% of N from Nutralene[®], 100% of K from SOP
Micro Grade Formulation

- High quality formulation designed for application to golf course greens which have adequate phosphorous but low potassium levels.
- Nutralene[®] contributes 100% of the total nitrogen, Potash derived from sulphate of potash for rapid and effective uptake without "turf burn".
- Iron, along with other micronutrients helps achieve colour response.
- Micro-granular particle sizing ensures ease and uniformity of application on closely mowed turf, with a minimum of mower pick-up.
