

# Milorganite®

## Greens Grade 6-2-0 with 4% Iron

- Milorganite® is a natural organic nitrogen fertilizer proven to work on everything that grows. Since it contains virtually no chemical salts, there's no need to worry about burning – or the consequences.
- Milorganite's slow release formula provides nitrogen over an eight to 12 week period, minimizing the problems of excessive growth, like constant mowing and extra clippings.
- For the formation of chlorophyll, iron is essential. And that's exactly what you'll find in Milorganite® - the fertilizer containing 4% iron.
- Milorganite® helps promote beneficial microbial activity in the soil.
