

## FAIRWAY FERTILIZER

# 6 IRON<sup>®</sup>

15-0-0 with 6% Fe

*"The Iron Solution for Fairways"*

- An economical Liquid Fairway Fertilizer
- Can be included as part of a fertigation program
- Provides a rapid colour response
- Reduced burn potential
- Complexed with mineral acids
- Unique chemistry provides an extended colour response
- Prevents chlorosis when mixed with growth regulators
- May be applied in combination with Amino K

### GUARANTEED MINIMUM ANALYSIS

Total Nitrogen (N) .....	15.0%
Iron (Fe) .....	6.0%
6.0% Water Soluble Iron	
Derived from: Urea & Iron Sulphate	

### DIRECTIONS FOR USE:

#### FOR BEST RESULTS:

Apply **6 Iron<sup>®</sup>** 15-0-0 early in the morning or late in the evening. Allow **6 Iron<sup>®</sup>** to dry on the plant for 3-6 hours following application. **6 Iron<sup>®</sup>** can be used as part of a fertigation program.

#### COOL SEASON TURFGRASS:

**Recommended Rate for Green/Tees:** Apply 60 ml per 100 sq. metres (2 oz. per 1000 sq. ft.) of **6 Iron<sup>®</sup>** with 4-8 litres of water per 100 sq. metres (1-2 gallons of water per 1000 sq. ft.). Repeat as needed.

**Recommended Rate for Fairways:** Apply 88 ml per 100 sq. metres (3 oz. per 1000 sq. ft.) of **6 Iron<sup>®</sup>** with 4-8 litres of water per 100 sq. metres (1-2 gallons of water per 1000 sq. ft.). Repeat as needed.

#### COMPATIBILITY:

When mixing **6 Iron<sup>®</sup>** with other fertilizers or chemicals use a jar test prior to mixing. **6 Iron<sup>®</sup>** may not be compatible with fertilizers containing phosphate.

1 U.S. Gallon • Net Weight 10.89 lbs. • 3.78 Liters • 4.95 Kg. • Specific Gravity 1.31 • pH: 1.80
